

### UNIVERSAL FIT

One tip, any pipette!  
Designed to fit leading  
pipette brands.

### HIGH QUALITY

Made of ultra-high  
molecular weight  
polyethylene.  
Does not Bend!

### NON-STICK RESIN

Low Retention Tips are  
advantageous, for example, in  
sensitive molecular biology  
applications, where reagents often  
contain viscous substances and  
detergents.

# MAGNUM<sup>®</sup> PIPETTE TIP

DESIGNED WITH PERFORMANCE IN MIND

## Magnum® Universal Pipette Tips

Our universal tip is a multipurpose tip for all laboratory applications to meet all kinds of performance requirements, ranging from very high accuracy to plain reagent dispensing with greater tolerance.

A filter tip is beneficial when the assay is sensitive to cross contamination or the sample can contaminate the lower part of the pipette. The filter prevents liquid from splashing accidentally inside the pipette and aerosols from penetrating into the pipette tip cone during pipetting.

In applications demanding the highest level of purity, sterile standard tips and filter tips are free of human DNA, DNase, RNase and endotoxins. A rack of tips is individually bagged and then sterilized by gamma radiation.

### AUTOCLAVING

Autoclavable at 121 °C  
(20 min).

### ACCURACY

Unique sealing end  
guarantees optimum  
accuracy and precision  
with Magnum® Pipettes  
and most other common  
pipette brands

### PERFORMANCE

Our Filter tips are especially suited for working with PCR techniques, and fully meet the requirements for microbiology and radioisotope work. The integrated hydrophobic polyethylene filter serves as a barrier against aerosols formed during pipetting. Filter tips protect the pipette shafts from contamination, and thus lessen the risk of cross-contamination and faulty measuring results.

## Ordering Information - Rack Tip

| Cat. No.  | Volume Range                            | Pcs/Rack | Rack/Case | Pcs/Case |
|---|---|----------|-----------|----------|
| RACK TIP - Filter, DNase/RNase free & Sterile                 |   |          |           |          |
| 10011001  | 0.1 to 10 ul                            | 96       | 50        | 4800     |
| 10011002  | 0.1 to 10 ul, Extended length: 46mm     |          |           |          |
| 10011003  | 1 to 20 ul                              |          |           |          |
| 10011004  | 1 to 50 ul                              |          |           |          |
| 10011005  | 1 to 100 ul                             |          |           |          |
| 10011006  | 1 to 200 ul                             |          |           |          |
| 10011007  | 1 to 200 ul, Extended length: 60mm      |          |           |          |
| 10011008  | 100 to 1,000 ul                         |          |           |          |

| 10011048  | 100 to 1,000 ul, Extended length: 102mm |          |           |          |
| RACK TIP - DNase/RNase free, Sterile & Low retention          |   |          |           |          |
| 10011049  | 0.1 to 10 ul                            | 96       | 50        | 4800     |
| 10011050  | 0.1 to 20 ul, Extended length: 46mm     |          |           |          |
| 10011051  | 1 to 200 ul                             |          |           |          |
| 10011052  | 1 to 200 ul, Extended length: 60mm      |          |           |          |
| 10011053  | 100 to 1,000 ul, Extended length: 102mm |          |           |          |

### PRACTICAL PACKAGING OPTIONS

Saving you time, money,  
and bench space.

### LOW RETENTION

Tips are made with a special resin that reduces the potential for sample retention inside the tip. They help users reduce sample loss when performing protein research and in sensitive molecular biology applications.

### RACKED

Made of PP. With push-on lid. Stackable and autoclavable at 121 °C ( 20 min).

## BULKS

Tips and filter tips are produced under the latest state-of-the-art clean room conditions and automatically shrink wrapped in bags and packaged in cardboard boxes.

## CONVENIENT

Smart color codes make it quick and easy to find the right tip for your pipette. Versatile package options are available for various needs.
